

Sign Language Workshop at Burch University

Apr 06, 2018

On Friday, April 6th, Burch University hosted dear Alma Mujanovic and Ira Adilagic, who held a sign language workshop at Burch University.

Given that it was a non-working day, there were still interested students as well as the staff who attended today's workshop which went by in a very positive atmosphere. The students learned a lot of sign words, they even managed to make several sentences in the first workshop and communicate with each other in a sign language, all thanks to our dear guests, Alma and Ira, who brought so much fun to the workshop that took place in the premises of the International Burch University.

Thank you Alma and Ira, and we hope that there will be a lot more similar workshops soon.
