

Representatives of BURCH participated in the Researcher's Night

Sep 29, 2018

Three teams of representatives of the International Buch University attended the Researcher's Night and presented their ideas.

On Friday, September 28, three teams composed of professors, students and staff of Burch University had the opportunity to exhibit their projects and ideas in three cities, Sarajevo, Mostar, and Banja Luka. The researcher's night is held for the fifth time with the aim of promoting scientific research, and our representatives exhibit their ideas for the second year in a row.

In previous years, teams had the opportunity to present their projects and ideas to more than 20,000 visitors who visited the event. We hope that the event will be even more successful and more visited this year and that the presence of our representatives will become a tradition.
