

First day of the academic 2018/2019 year

Oct 01, 2018

All students of the International Burch University have started another academic year today, October 1st, and have started their lectures as planned.

Freshmen had the opportunity to meet their peers, mentors, and professors, and to start their new University student lives. All students have seen their syllabus and schedule for their lectures, and the new academic year was welcomed in a good mood.
