

IBU Professor Almir Badnjevic at the Global Forum on Medical Devices

Dec 22, 2018

Assist. Prof. Dr. Almir Badnjevic, a professor at the Department of Genetics and Bioengineering at International BURCH University is a first lecturer and representative from Bosnia and Herzegovina at the Global Forum on Medical Devices in the organization of the World Health Organization.

This Forum is organized for the fourth time and this year was held in Visakhapatnam, Andhra Pradesh, India, from Thursday 13th to Saturday 15th December 2018. The topic was “Increasing Access to Medical Devices”.

On behalf of the Division for Clinical Engineering of International Federation within Medical and Biological Engineering of the World Health Organization itself, professor Badnjevic held workshops, lectures and moderated sessions.
