

New 20 IBU students in exchange program all over Europe

May 10, 2019

Universities all over Europe have hosted around 300 IBU students and employees, who are actively involved in the Erasmus + program since its introduction in 2014.

Currently, IBU has more than 20 Erasmus + partners with the tendency for this number to grow with each call for new projects application. Our partners are esteemed higher educational institutions in Germany, Poland, Netherlands, Austria, Spain, Romania, Latvia, Lithuania, and other European countries. Universities all over Europe have hosted around 300 IBU students and employees, who are actively involved in the Erasmus + program since its introduction in 2014.

During the current academic year, 20 IBU students started their Erasmus + journey at both undergraduate and master studies. Taking courses which will upon their return be recognized at the home institution and being part of the international educational program will help them to broaden their horizons, gain needed know-how and make them more competitive as a student and future business environment member, which is one of the IBU goals as the first entrepreneurial university in Bosnia and Herzegovina.
